## WELCOME!

The 3rd International Patient Summit (IPS 3) aims to bring together global leaders, patient organisations, clinicians, researchers, policymakers, and industry partners to advance the shift from patient engagement to patient partnership.

Building on the momentum of previous editions, Under the theme **“From Rare to Common: Uniting Patient Voices for Better Health,”** IPS 3 will focus on how patient perspectives can shape health systems, research, financing, and policy frameworks across the Asia-Pacific.

The summit will provide a platform for multi-stakeholder dialogue and action, with the summit moving beyond dialogue to action-oriented collaboration, creating space for stakeholders to co-develop solutions that are inclusive, scalable, and sustainable.

## THE THEME

From Rare to Common: Uniting Patient Voices for Better Health

# OUR OBJECTIVES

- **Embed Patient Voice in Decision-Making**

Strengthen the role of patients in clinical research, health policy, and system design.

- **Bridge Innovation and Access**

Address gaps between scientific advancement and real-world accessibility, particularly in rare diseases and advanced therapies.

- **Enable Sustainable Health Systems**

Explore financing models, public-private partnerships, and policy innovations that improve affordability and equity.

- **Strengthen Patient Organisations (PAGs)**

Build capacity in governance, advocacy, and engagement through dedicated workshops and knowledge exchange.

# OUR VISION

*“Healthcare systems must evolve from being provider-driven to partnership-driven.”*

IPS 3 envisions a future where patients are actively involved across the continuum—from clinical trials and research design to policy formulation and care delivery.

By convening diverse stakeholders, the summit aims to catalyze system-level change, ensuring healthcare is more equitable, transparent, and responsive to patient needs.
