

## “The Long Road to a Rare Disease Diagnosis”

“Many patients notice unusual symptoms — but they often seem unrelated or mild.”

“On average, a rare disease patient sees 7+ doctors before getting a correct diagnosis.”

“Delays in diagnosis affect quality of life, access to care, and emotional wellbeing.”

Let's create:

- More awareness among doctors
- Better access to genetic testing
- Patient support networks
- Newborn screening (for certain diseases)
